

# Average mobile ESS unit price per 10kW in Guernsey

What is the maximum resale price for electricity in Guernsey?

Guernsey Electricity Limited, in accordance with section 23 (2) (b) of the Electricity (Guernsey) Law 2001, hereby gives notice that the maximum resale price at which electricity can be resold by persons to whom it is supplied is \*25 pence per unit. What Is A Tariff? Put simply, a tariff calculates your bill.

How does Guernsey Electricity work?

To help keep the lights on, our homes warm and the Wi-Fi running, Guernsey Electricity collects tariffs from every customer on our electricity network. Put simply, a tariff is the price used to calculate your electricity bill.

Does Guernsey Electricity charge a monthly charge?

Where Guernsey Electricity is required to provide a standby electricity service for 'behind the meter' non-renewable energy installations (including CHP) with generation capacity in excess of 25kW, a monthly charge will be applied. For every kW of installed capacity, we charge the standby rate'

Does Guernsey have a heat pump tariff?

There is also a dedicated Heat Pump Tariff. Guernsey Electricity reserves the right to interrupt a supply to dedicated heating tariff meters, in the unlikely event of severe network conditions for up to 30 minutes in a 24-hour period, with a maximum number of interruptions being four times per calendar year.

Why are Guernsey's prices so high in 2024?

Previously, we had locked in lower prices ahead of time, which protected islanders from the significant tariff increases seen in recent years across the UK. As these agreements end, we have faced higher costs than the fixed prices we've paid in the past. Inflation- Guernsey's inflation rate remained high in 2024.

What is 1MWh 3MWh ESS?

1MWh - 3MWh solar energy storage systems are widely used in house communities, irrigation, villages, farms, hospitals, factories, airports, schools, hotels (holiday homes), farms, remote suburbs, etc. How many solar panels do I need for 1mwh-3mwh ESS? PVMARS offers 50W-600W solar panel models, with 550W being the most popular choice.
