The Solar Panel Carrier Accessory is used with RGC Classic Platform Hoists to raise and lower solar panels safely and efficiently. With solid construction that's built to withstand the toughest use, the Solar Panel Carrier attachment is a must have ladder hoist accessory. This product is compatible with RGC's CLASSIC PLATFORM HOISTS.

The Drabest ladder hoist has a special trolley for transporting photovoltaic panels. The panels are made of a delicate material, so special care must be taken when installing them. The trolley has a number of safety features that allow the modules to be carefully, gently and safely hoisted to the top of the building without risking any damage.

Solar panel lifting bags are typically used because they are easy to load and unload the solar panels with the inbuilt lifting sling system hoisting them up to the height required is pretty simple. Solar panel bags can also be used for other frame type objects and take up minimal storage room when not in use.

The Solarlift, also called a panel lift or PV panel lift, is an economical solution for the speedy and safe transport of photovoltaic and solar panels. Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a time-saving space-saving way to reach inaccessible loading areas.
