Bank Locker New Rules. The RBI bank locker rules have introduced the renewal process of bank locker agreements. In this phase, the account holders who have submitted their agreements on or before 31st December 2023 must sign a revised agreement and submit it to their respective bank before 31st December 2023.

I put mine on my 5-drawer cart and used some 1/8" thick 90 metal to bolt casters to. As long as where you need to drill through on the bottom side where it bolts to the main box doesn't line up where a drawer slide is you should be able to bolt it on no problem, I've seen it done before without the casters on that box, it's up to you if you feel you need the extra support or not.

I have a large kitchen window that I will be wanting to put a socket under, which will be above the worktop. Now I know a bit about safe zones etc but running cabling ...

Can I put a locker under the window

Just throwing my hat into the mix, in case a new perspective on an old scenario helps. I would put the bed under the window again, really pretty and serene there, but instead of covering up the window, I'd install wooden ...

From the Hide File tab, select Hide Folder, and choose the folder you want to protect behind a password (or drag the folder into the program window). Any folder but system folders are allowed. After choosing it, the folder ...

With it, you have several ways of using it. For example, you can install it above the sash and have it keep your window secure until you push the lock and get the window completely open. At the same time, you can put it higher up, and you will have a half-open window which can be opened further if you push the lock in. 8. Lag Screws

For instance, if you know you mostly sit at your desk and work in the mornings, you might want to put your desk under an east facing window so you can watch the sun rise. Although, if you're keen on avoiding any possible instances of glare or too much light coming in, you should pick a window that doesn't get as much light during your preferred working hours.

In the Add to Archive window, make sure to select 7z from the Archive drop-down menu. In the Encryption section, type a secure password in the Enter password and Reenter password boxes. Make sure that AES-256 is selected as the Encryption method, and click to enable the Encrypt file names if you want to hide the names of the files held within your ...

Is it still a good idea to put radiators under windows? Despite often being viewed as an out-of-date idea, there is actually nothing wrong with placing radiators under the window and in some cases it can still be the best option -- even for those with triple glazed windows. "The best place to put a radiator is in the coldest spot of a room.

The space under a window can be a design problem area for many; but if you consider the options you'll see there are several solutions to filling that blank space. Homes and the rooms within today's homes have ...

Came here to say this. They changed the model for sure, there is now an invisible part on the front of the locker blocking the window placement. You can see this for yourself by rotating a locker and trying to put it against a wall. You will see you can't place it flush with the wall when reversed. RIP usable honeycomb :(

Different types of windows can affect how much natural light enters the room and how much privacy you have. For example, if you have large bay or picture windows that offer stunning views but also let in lots of
