

Can a moisture-proof cabinet store tea

Is it suitable to store tea in a kitchen cabinet?

Although it might be a common practice, your kitchen cabinet is not a good place to store tea. This is because residual enzymes in the tea leaves and trace oxygen in the tea pack continue to change the chemical composition of the tea, a process that is accelerated by heat.

Do you need an airtight seal for tea storage?

2. Airtight seal Your tea storage must have an airtight seal in order to keep out the three biggest threats to tea: air, moisture, and odors. You do not want your tea degrading, or taking on neighboring smells such as coffee or strong spices.

How do you store tea?

Store far away from anything with a strong odor. Store in a dark cabinet or completely opaque container. Keep delicate teas separate from strongly scented teas. Avoid storing tea in humid areas of your kitchen or house. Use opaque packaging if possible. Be sure your packaging is food-safe (for example, don't use a pencil case to hold tea).

What is the moisture level of tea?

A properly processed tea has a moisture level between 3 to 6%. That is why it is important to keep tea in a very airtight container, as tea acts as a powerful absorption agent and can be used as a deodorizer or dehumidifier.

Can tea be stored in the refrigerator?

No, storing most tea in the refrigerator will actually expose it to moisture and condensation, thereby reducing the shelf life! It's better to just store your tea in a cool, dry place like a cabinet away from appliances like stoves or ovens. The only tea that is best to store in the refrigerator is matcha. How long does tea last?

How do you store tea in a canister?

Your tea storage must have an airtight seal in order to keep out the three biggest threats to tea: air, moisture, and odors. You do not want your tea degrading, or taking on neighboring smells such as coffee or strong spices. 3. Shape and Size Choose a canister that is appropriate for the amount of tea you need to store.

Direct light reduces the shelf life and can affect the flavor of tea, so it's important to store tea bags away from it. Moisture. It's important to keep tea bags away from moisture, whether that's actual water or just humidity in the air.
