Chint Power's POWER BLOCK2.0 liquid-cooling energy storage system combines three major advantages: high specific energy, high performance, and high safety. The system consists of a PCS booster tank and a liquid-cooling battery tank, which can hold up to 5MWh in a standard 20-foot container, increasing the specific energy by 37% and effectively ...

With climate change creating a need to reduce carbon emissions and harness renewable and sustainable energy sources, international intelligent energy technology provider CHINT Global is providing smart energy solutions as part of its mission to light up boundless possibilities, guided by its values of customer centricity, openness and inclusion, and ...

Chint Power Systems (CPS) new commercial energy storage system (ESS) is a turn-key solution including LG Chem Li-Ion batteries, CPS power conversion technology, and partnered EMS application management software, all in a UL9540 certified product. The 30kW/65kWh, 30kW/130kWh, or 60kW/130kWh packages are ideally suited for commercial energy storage

PV EXPO Tokyo 2024 was held from February 28th to March 1st at the Tokyo Big Sight. Chint Power presented ground-based power stations, and industrial and commercial energy storage solutions at Booth E14-29, and shared the latest technical achievements, project cases, and energy storage system solutions with exhibitors from all over the world.

Thank you for choosing a CPS ES Series Energy Storage System. These are high performance and highly reliable products specifically designed for the North American solar market. The ...
