

Crown Photovoltaic Panel Dispute

What is the EU-China solar panel dispute?

Introduction: Overview of the EU-China solar panel dispute
In 2012, the European Commission launched an anti-dumping and anti-subsidy investigation on solar panels imported from China after a petition from Belgium.

What happened to PV solar UK?

PV Solar UK went into liquidation in 2017. Robert Skillen, who was the director of the firm when Mr Thompson bought his system, said Mr Thompson's panels would make him money. Mr Skillen is now in business claiming to help people who have been mis-sold solar panels. He did not want to be interviewed.

How did the solar panel trade defence case turn into a political battle?

The solar panel trade defence case turned into a wider political battle when several Member States confronted the European Commission over its proposals as to how to solve these disputes.

Why is the solar panel Anti-Dumping case a major trade dispute?

Therefore, the escalation of the solar panel anti-dumping case into a major trade dispute, which highlighted both the possible contradiction between the promotion of strategic industrial interests and the pursuit of common global climate goals, and the inadequacy of trade law to resolve it, attracted unprecedented attention.

Do Solar EPC contracts have performance issues?

Performance issues and disputes will invariably arise from time to time. Solar EPC contracts generally provide fixed dates for project completion.

Does the EU's solar panel trade dispute harm Europe's climate goals?

European Commission (2012b) The EU's investigation into solar panel imports from China does not harm Europe's climate goals. Factsheet. 10 September
