The Gates is 53 5/8" and the Quanta is 53 1/4" which puts the alternator right on the valve cover so a 54" belt should put it in the middle of the brace adjustment slot. I wonder if there are any other v belts that are solid like the original and not cogged like the Gates. Just like the look of the solid belt on the old engines.

Genuine EZGO OEM starter/generator belt, not a cheap knock off part. Worked as advertised! Good price too. Went on a 2003 EZGO TXT 295cc Robin Engine. I would highly recommend! Read more. Report. Jeremy Crick. 5.0 out of 5 stars Great quality. Reviewed in the United States on 18 September 2019. Verified Purchase.

Most likely you have 2 bolts that hold the generator in place. If you loosen both of them, the generator should rotate towards the engine. This produces slack in the belt. You will remove the belt from the generator pulley, and use the looseness of the belt to remove it from the fan pulley and crankshaft pulley if necessary.

Discover a wide selection of affordable Generac equipment belts, including fan belts, timing belts, serpentine belts, V-belts, tiller belts, and more. Welcome to the #1 Online Parts Store! ... Gensys Parts DIY - Generator and Outdoor Equipment Parts and Accessories.

The changeover was on 07/12 - and some dealers/suppliers may still have had the old spec belts in stock. (Actually - I know a number of aftermarket vendors had the old spec belt specified back in June when I did this job..) Here is what they look like - the size is embedded in the belt code from Conti: Old Belt - 611mm

Have been trying for some time to replace the generator belt on my Farmall M. (It's getting pretty ragged.) To do so requires first slackening the water pump belt for which I could find no adjustment. However, thanks to information from this forum, I located the set screw and locknut securing the adjustable water pump pulley to the shaft along ...

HSG (Hybrid Starter Generator) Belt Replacement. ... Another surprise! I noticed the Hyundai Maintenance Schedule has this belt tagged for inspection every 8,000 kms or 6 months, and to REPLACE every 48,000 kms or 24 months. Replacement is included in the Type 3 Service for the PHEV and HEV.
