

What is a Tier 1 solar panel?

That's how the solar industry came up with the Tier 1 solar panels concept. In this article, we'll break down what Tier 1 solar panels are. A tiering system does exist. It was developed by Bloomberg media, the provider of financial and investment analysis. However, it does not refer to solar panels but to solar panel manufacturers.

Which company to choose for Tier 1 solar panels?

If you are seeking high cost-effectiveness, fast delivery, and low MOQ for Tier 1 solar panels, we recommend choosing UE, as they have close collaborations with companies like Longi, Jinko and Trina etc. 1. Original Tier 1 Factory audit is supported by third party; 2. Bar-code can be checked from Tier 1 website; 3.

What is a Tier 1 PV module manufacturer?

"Tier 1 PV module manufacturers are those which have provided own-brand, own-manufacture products to at least six different projects, which have been financed non-recourse by six different commercial (ie not development, not export-import) banks, in the past two years." There is no mention of product quality.

Why has BNEF withdrawn a list of solar panel manufacturers?

As of the first quarter of 2024, the list of solar panel manufacturers meeting BNEF's Tier 1 criteria has been released. Surprisingly, compared to the previous round, over 40% of PV module manufacturers have temporarily withdrawn. The reason for this is that BNEF has revised the rules, significantly raising the entry threshold.

Are Trina Solar panels a good choice?

Trina are among the largest solar panel manufacturers in the world, and consistently listed in Bloomberg's Tier 1 top ten. Trina's monocrystalline solar panels offer both reliability and excellent value for money on commercial scale installations. Container quantities are also available with free delivery - get in touch for project pricing.
