

Government procurement price of BESS in Hungary

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

Which energy storage companies are deploying large-scale Bess projects in Hungary?

System integrators Tesla and Wärtsilä have deployed large-scale BESS projects in Hungary previously. Energy-Storage.news' publisher Solar Media will host the inaugural Energy Storage Summit Central Eastern Europe on 26-27 September this year.

Will MAVIR's new support scheme boost electricity storage in Hungary?

Due to recent changes to Mavir's operational code, the transition of granted grid connections from photovoltaic power production to BESS projects will be allowed. This new support scheme is expected to provide a necessary boost to electricity storage in Hungary.

What is a Bess project?

Based on Government Decree 382/2023 (VIII 14) of Hungary, the approach to electricity production and consumption from renewable energy sources has taken a new turn: BESS projects are now among those investments the government intends to support with financial incentives.

Will Hungarian electricity storage facilities support a net-zero economy?

The European Commission has approved a EUR1.1 billion (approximately HUF 436 billion) Hungarian scheme to support electricity storage facilities to foster the transition to a net-zero economy.

Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in ...

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the ...

Hungary has 40MWh of grid-scale BESS online today but that will jump 3,400% to around 1,300MWh over the next few years thanks to opex and capex support from the government, said Pálma Szolnoki, senior
