

# Government procurement price of residential solar battery in France

How much does a ground-mounted solar project cost in France?

Broadly speaking, for ground-mounted solar projects located in mainland France, the FIT will be reduced from EUR 570 per MWh to EUR 30 per MWh. The minimum FIT will be in the range of EUR 18 to EUR 50 per MWh, and the average FIT will be around EUR 30 per MWh.

How will the fit reduction affect solar projects in France?

The reduction affects 436 facilities. The average reduction of the tariff is 47%, while 4% of the projects would suffer a 95% reduction. Broadly speaking, for ground-mounted solar projects located in mainland France, the FIT will be reduced from EUR 570 per MWh to EUR 30 per MWh.

How much will France Relance invest in the energy sector?

In addition, in October 2021, the authorities announced a new investment plan called "France 2030." The plan, worth EUR 30 billion until 2027, would complement France Relance and especially target further investment in the energy sector (EUR 8 billion).

What are the biggest energy projects in France?

The two largest selected projects, in terms of capacity, are a 42.8-MW scheme in Grant Est and a 40.1-MW project in Nouvelle-Aquitaine. Dharma Energy, Technique Solaire and Engie are among the winning developers. France-based Neoen has bagged a total of 130.3 MWp. (EUR 1.0 = USD 1.133)

How much electricity is generated in France in 2021?

In 2021, 522.9 TWh of electricity was generated in France, a 2.7% drop compared to 2019. Nuclear generation and fossil fuel thermal generation were respectively 4% (18.8 TWh) and 8% (3.4 TWh) lower than in 2019.

How many MW will France generate by 2023?

The government intends to upgrade the existing facilities enabling additional generation of 200 MW by 2023 and increasing capacity by 900 - 1200 MW by 2028. Geothermal energy is a minor source of electricity generation in France, representing only 0.1% of renewable electricity production and 2.3% of renewable energies for thermal use in 2020.

What is Labor's home battery subsidy? Labor's \$2.3 billion program applies to people with existing solar, or for those wanting to invest in a new solar-plus-battery set-up.

The Q& A gives a high-level overview of the domestic electricity market, including domestic electricity companies, electricity generation and renewable energy, transmission, distribution, ...
