Types of Services: Residential, Commercial and Industrial. 3) Engie. ENGIE Group is a global conglomerate in low-carbon energy and services. Their purpose is to accelerate the transition towards a carbon-neutral world, through reduced energy consumption and more environmentally-friendly solutions, reconciling economic performance with a positive impact on ...

Under typical UK conditions, 1m² of PV panel will produce around 100kWh electricity per year, so it would take around 2.5 years to "pay back" the energy cost of the panel. PV panels have an expected life of least 25 to 30 years, so even under UK conditions a PV panel will generate many times more energy than was needed to manufacture it.
