How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said, let's explore some common solar installation scenarios...

How much does a solar panel installation cost?

Generally, two installers will work together to install your solar panel system, and depending on its complexity, they can take up to 3 days to complete the installation. This means that you can expect to spend anywhere between £600 and £3,000 on labour costs alone.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 - £1,500, whereas polycrystalline solar panels cost about £900 per kW.

What is a solar panel cost calculator?

The solar panel cost calculator below will help you determine how much energy you can save, as well as the financial rewards you could potentially earn by installing a solar panel array on your property. Please bear in mind that the calculator will provide estimates based on the information you have provided.

How much does a solar system cost?

When you receive a quote for a solar system, it generally includes labour costs, but as a rough guide, the prices can range from £300-£500 per day per installer. The time taken to install a system typically depends on its size and the accessibility of the roof.

How much does a solar PV installation cost per kilowatt?

The mean average cost per kilowatt of a small solar PV installation (0-4kW) is above £2,000 for the first time since these records began in 2013/14. Prices for larger solar installations (4-10kW) increased even more dramatically - by 31% since 2021/22.

We picked REC Solar for its long list of available solar panel product lines. Additionally, the company is a PV Evolution Labs top performer in the industry. REC Solar's lineup of at least 20 ...
