

How much does a Hongguang mini EV cost?

The conglomerate positions the car as "the People's Commuting Tool" in its advertising, with a starting price of 28,800 yuan (US\$4,485) and a fully charged driving range of 120km. Since its debut in July 2020, the Hongguang Mini EV has sold over 270,000 units and was the best-selling EV worldwide in January.

How many EVs are sold in China?

Total EV sales in China were 1.3 million, an increase of 8 per cent compared to 2019, and 41 per cent of all EVs sold worldwide. Though Europe sold more than China for the first time since 2015, China is still the world's biggest national market for EVs.

What is the capacity potential for large-scale solar PV in China?

4. Discussion This work reports that the total capacity potential for large-scale PV in China is 108.22 TW with 150.73 PWh annual solar PV generation (implying an average capacity factor of 15.9), which can bring 150.28 billion tones of CO₂ emission mitigation caused by coal-fired power generation.

Is a new Wuling Hongguang mini eV on the horizon?

The Wuling Hongguang Mini EV has fallen pretty far down the sales charts, but it looks like a new one is on the horizon with potentially broader appeal. China's Ministry of Industry and Information Technology (MIIT) has exposed patent-style photos of Wuling's littlest EV before its official debut.

How much does China Export EVs & solar cells a year?

China's combined exports of EVs, lithium-ion batteries and solar cells (the building blocks of solar panels) reached 264 billion yuan (US\$36 billion) between January and March, a 66.9 per cent year-on-year increase. Image: Andy Amor, CC BY-SA 3.0, via Flickr.

Where did Hongguang's mini EV come from?

This might explain why Hongguang's Mini EV - with its limited range and relatively cheap price - originated in Liuzhou of Guangxi province, a small city in the south-west of China. Larger cities in China commonly implement car plate lotteries that limit the number of petrol cars licensed each year.

GridOto - Wuling HongGuang Mini EV telah resmi meluncur sebagai mobil listrik termurah dan terkecil Wuling di Vietnam (29/6). Menggandeng TMT Motors, Wuling HongGuang Mini EV langsung diproduksi lokal di pabrik yang beralamatkan di Hung Yen, Vietnam.
