

Installation of Prince Solar Support

Can a solar panel be installed on a south-facing roof?

A solar panel will be most effective if you have a south-facing roof. This will ensure maximum sunlight reaches the panel. You will also have to make sure that your roof can support a panel, and that it has a large enough area for panel installation. Do I need planning permission for solar panels?

What is needed to install solar panels on UK homes?

Here's a quick guide to what's needed to install solar panels on UK homes: An installer should visit to determine if the property is suitable for solar panels. They will look at the size and orientation of the roof to decide the best location and angle for installing panels.

Do I need planning permission to install solar panels on my roof?

When considering the installation of solar panels on your roof, it's critical to understand if you need permission. In the UK, solar panel installations often fall under "Permitted Development," meaning you typically won't need planning permission.

How do I install a solar panel?

Installing your solar panel is a straightforward process though calling in professional installers is recommended. Making sure these installers are accredited by MCS is highly important, so as to ensure a high standard of installation. Is my home suitable for solar PV panels? A solar panel will be most effective if you have a south-facing roof.

Can solar panels be installed on a roof that faces north?

Solar PV panels are not recommended for a roof that faces north. You also need to consider both the age of your roof and how strong it is, as PV panels are heavy. Shade could be a big problem for solar panels, so no panels should be installed where there is shade from trees, chimneys, walls or other obstructions.

How many solar panels are installed a week in the UK?

More and more households in the UK are turning towards solar panels for their energy production. Over 3,000 installations are being carried out each week according to trade association Solar Energy UK. The solar panel installation process, however, remains relatively unknown.
