How do you mount an inverter to a bracket?

6 Hang the inverter on the bracket: Align the two indentations in the inverter enclosure with the two triangular mounting tabs of the bracket, and lower the inverter until it rests on the bracket evenly. Secure the inverter to the bracket using the two supplied 5mm screws.

Why should you install a solar panel bracket?

The purpose of installing the bracket is to better fix the solar panel. If there is a more convenient and feasible method to fix the solar panel, PVMars will definitely recommend it to you, and effective solutions are based on solar panels' characteristics and your on-site installation environment.

How to install a PV inverter?

step 1: Rotate all the DC switches to 'OFF' position. step 2: Check the cable connection of the PV string for polarity correctness and ensure that the open circuit voltage in any case does not exceed the inverter input limit of 1,100V. step 3: Connect the PV connectors to corresponding terminals until there is an audible click.

How to install mounting bracket?

Dimensions of the assembled mounting-bracket are as follows. Assemble the mounting-bracket by using the connecting bar. 3.4.1 Standard C or U Steel Installation Mounting Steps: Step 1 Localize the hole positions in C or U-section steel to install mounting bracket. Step 2 Secure the mounting bracket with M8 bolts and nuts.

How to install PV connectors?

4.5.2 Installing the PV Connectors. step 1: Rotate all the DC switches to 'OFF' position. step 2: Check the cable connection of the PV string for polarity correctness and ensure that the open circuit voltage in any case does not exceed the inverter input limit of 1,100V.

How should a solar inverter be installed?

The humidity of the installation location should be below 100% without condensation. Do not install the inverter outdoors in salt, sulfur or other corrosive areas. Prevent the inverter from direct exposure to sun, rain and snow. The inverter should be well ventilated. Ensure air circulation. Never install the inverter in living areas.
