How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said, let's explore some common solar installation scenarios...

What are solar panel mounting brackets?

Solar Panel Mounting Brackets by Fastensol are the backbone of sturdy and reliable solar installations. These brackets provide a secure and adaptable framework for attaching solar panels to various surfaces, be it rooftops or ground structures.

What are solar panels brackets & how do they work?

These brackets provide a secure and adaptable framework for attaching solar panels to various surfaces, be it rooftops or ground structures. With their durable construction and easy installation, they ensure optimal panel positioning, maximising energy production for sustainable power solutions.
