

Photovoltaic panel mesh

Eco7 recommend a wire mesh system as a form of protection. The mesh is installed around the perimeter of the panel installation and prevents access beneath the panels, offering protection for your roof, cabling and solar panels.

This system creates a secure physical barrier, ensuring pests are kept out of solar panel mounting areas. The Solar Kit attaches safely to solar panels without causing any damage or voiding the panel warranty. The mesh and clips are durable, weather-resistant, and easy to install on solar units with a bracket depth of more than 30 mm (1 3/16").

Fast and easy installation using compatible solar panel mesh clips. Sleek black design blends seamlessly with solar panel systems. Material: Galvanised steel with black PVC coating. Dimensions: Roll Length: 30 metres. Roll Width: ...
