Increase solar PV panel efficiency with our maintenance programme. The average expected lifespan of a solar panel is around 20 to 25 years. However, this can be significantly reduced if the panel is allowed to become damaged or excessively dirty due to a lack of maintenance. The cleaner your panels can remain, the more efficiently they will work.

We can carry out solar panel repair or maintenance on any solar PV system If you already have solar PV installed at your property then you'll know that they are pretty low maintenance. That being said, all systems need a check-up every so often and, as they are built to last for many years, faults may pop up along the way.
