What is a WeChat moment?

A WeChat Moment is like a Snapchat or Instagram Story. A snapshot of your life at that particular time. There are two main types of Moment. Carefully curated Moments designed by brands with big budgets and regular Moments published by regular people. We only care about the latter of those as they are the only authentic Moments.

Can I post a moment on WeChat without an image?

Moments can be shared either with or without an image. I would suggest that those with an image are much more interesting than those without but it is entirely up to you what you post and when. Posting a Moment on WeChat is quite straightforward. If you know your way around the app already it can be done in just a few seconds.

How do I post a moment on WeChat?

Posting a Moment on WeChat is quite straightforward. If you know your way around the app already it can be done in just a few seconds. What is more difficult is coming up with interesting things to put in there. Open WeChat and select the Discover icon at the bottom of the main page. Select Moments from the list on the next page.

Is WeChat a chat app?

WeChat is more than just a chat app, it's an entire social media ecosystem. In China, it's an all-encompassing social app with payment, group interaction, web browser, social network and more. In the west it's mainly a chat app but Moments add a little more depth to it. This tutorial is going to walk you through posting Moments on WeChat.

How do I create a photo on WeChat?

Open WeChat and select the Discover icon at the bottom of the main page. Select Moments from the list on the next page. Tap the camera icon in the top right. Just tap the icon. A long press creates a text-only Moment. Select Take Photo or Choose Existing to use a gallery image. Add a caption in the text box that appears on screen.

Can I edit a WeChat image?

There are no real editing features in WeChat so if you need to tweak your image you'll need to do that before setting up your Moment. You can select Location to show your location. This is disabled by default thankfully but if you're out sightseeing or traveling, it might be useful to add your location.
