

# Premium price per watt for assembled photovoltaic bracket

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 - £1,500 whereas polycrystalline solar panels cost about £900 per kW.

How much does a 4kWp solar panel cost?

Solar panel price index for 4kWp (16 solar panels) in Q3 2014 stands at £5,200, based on the top ten quotes on CompareMySolar. Best prices have been stable around £5,000 - £5,500 (incl. VAT and installation) since 2013. Solar panel prices dropped by two-thirds from about £15,000 in 2011, towards £8,500 in 2012, towards £5,000 in 2013.

How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said, let's explore some common solar installation scenarios...

How much does a 3.5 kWp solar panel system cost?

A 3.5 kWp solar panel system would typically require around 10 solar panels (at 350 W each) and cost between £5,000 and £10,000. \*kWp stands for 'kilowatt peak'. This is the amount of power that a solar panel or array will produce per hour in prime conditions.

How much do monocrystalline solar panels cost?

The exact cost of monocrystalline solar panels will vary depending on the manufacturer and the size of the solar panels. As a rule of thumb, monocrystalline solar panels have their highest price point at about £1 - £1.50 per Watt. Polycrystalline solar panels, on the other hand, have a lower efficiency rating than monocrystalline panels.

How much does a 5 kWp solar array cost?

In some cases, a 5 kWp solar PV array will be sufficient to meet those energy demands. A 5 kWp solar system will typically require around 15 solar panels at 350W each and cost between £8,000 to £12,000. Here is an overview of solar PV array installation costs which also shows how much roof space is required for each on average:

Today's premium monocrystalline solar panels typically cost between \$1 and \$1.50 per Watt, putting the price of a single 400-watt solar panel between \$400 and \$600, depending on how you buy it. Less efficient polycrystalline panels ...
