46. Solar Panel Life Span Calculation. The lifespan of a solar panel can be calculated based on the degradation rate:  $L_s = 1 / D$ . Where:  $L_s$  = Lifespan of the solar panel (years)  $D$  = Degradation rate per year; If your solar panel has a degradation rate of 0.005 per year:  $L_s = 1 / 0.005 = 200$  years 47. System Loss Calculation
