Slope roof solar bracket 1

ECO-WORTHY Roof Solar Panel Mounting Bracket Kit is designed for residential and commercial applications. We design the clamps according to the rooftop shape and size to make sure enables surprisingly quick and easy installation for every roof. Suitable for metal roof, wooden roof, tile roof, cement roof. Unique design can be used for both flat roofs and pitched roofs.

Recently, our company completed a 2MW arched roof solar bracket and walkway panel installation project in Indonesia. From the initial design to the final implementation and installation, every step involved the professional knowledge of our engineers and the exquisite skills of our construction team.

At the heart of the NORDIC SLOPE series are our innovative roof brackets, constructed from a special carbon steel alloy and protected by our exclusive JISCO coating. This cutting-edge zinc-aluminum-magnesium alloy coating, applied through a hot-dip galvanizing method, offers unparalleled corrosion resistance--triple the durability of standard galvanized steel.
