

Small solar light with bracket and color

What are the different types of solar powered lighting products?

Our range of solar lighting products include smaller fairy lights and outdoor string lights, stake lights, lampposts and even novelty themed lights. So, if you 're looking for a subtle twinkle, or need to illuminate a pathway, then we will have the perfect solar powered lighting solution for you.

Why should you choose decorative solar lights for your garden?

Explore our beautiful range of decorative solar lights to add some fun and character to your garden. Garden lighting is a must so you can enjoy spending time in your garden after dark during the warmer months, and it can go a long way towards creating the desired ambience in your outdoor space.

What types of outdoor lights are available?

From solar tree lights to blend in with the foliage to solar stake lights to light up your pathways, you'll find some amazing options in our range. When it comes to garden decoration, you can't go wrong with our collection of outdoor lighting.

What are solar path lights & spotlights?

Our staked solar path lights and spotlights are a great way to create pathways as an alternative to steps and stairs, helping you get around your garden at night with ease. They're just the thing to welcome guests arriving to your home in the evening - and they'll save you from having to fumble about in the dark for your door keys.

Do solar lights need a power cable?

Because solar lights rely entirely on sunlight which is then converted into an electrical current, there's the added bonus of ultra-easy installation - and there's no need for power cables either! Our range of solar lighting products include smaller fairy lights and outdoor string lights, stake lights, lampposts and even novelty themed lights.

Are solar lights a good choice?

If you're looking for home accessories which will help you to cut your energy bills while being kinder to the environment, solar lights are a great place to start. The first thing to consider when choosing your next set of solar lights is how much light do you want?
