For solar charging, you need a special solar adapter cable that some manufacturers include in the solar generator kit. An average solar charging time is around 5 hours, but large generators like the Renogy Lycan 5000 and the Bluetti EP500 have a dual-charging mode which lets you charge from the grid and solar at the same time.

Also consider run time: to power a 200-watt refrigerator for 10 hours, you'll need a 2,000-watt generator. For an eight-hour run of a 40-watt CPAP machine, a 500-watt generator is sufficient ...

A solar generator with an output of 5kW (5000W) is a pretty powerful one. Most portable solar generators have an output ranging between 150W and 3000W. 3000W+ solar generators are few, but we are starting to see more of them in the market.. With 5kW of output, you can not only run any household appliance, you can power multiple appliances at the same time.
