

Solar Panel tender price in Ireland 2025

How much does solar PV cost in Ireland?

Let's take a broader look at Solar PV pricing in Ireland. In 2025, our research shows installing solar panels on an Irish home generally costs from EUR3,200 to EUR15,600, depending on system size and setup. Grants are already factored into these prices.

How much does a commercial solar panel installation cost in Ireland?

The cost of commercial PV panel installations depends on the size and complexity of the project. The price per watt may decrease for larger systems due to economies of scale. Commercial solar PV installations in Ireland cost between EUR15,000 and EUR200,000 or more, depending on the project's size and requirements.

What happened to solar panels in Ireland in 2023?

In May 2023, the Irish government abolished the 13.5% VAT on the supply and install costs of solar panels, instantly cutting about EUR1,000 off the average installation cost. Prices remain much the same this year compared to last. The grant has come down over this period so this points to a modest reduction in costs.

How much do solar panels cost in 2025?

The average price for a typical household is EUR6,800 - EUR7,800 for 12 to 14 solar panels, after taking the EUR1,800 SEAI grant into consideration. Thanks to advances in solar cell technology, improved manufacturing scale and domestic government policy - PV panels cost significantly less in 2025 than in previous years.

How much does a 2KW Solar System cost in Ireland?

A 2kW solar PV system in Ireland costs approximately EUR4,000 to EUR6,000, including installation. This price may vary depending on the type of panels, installation complexity, and additional equipment needed. How much does a 5kW solar system cost in Ireland?

Will Ireland see a rise in solar panels in 2025?

The solar panel industry in Ireland has only gone from strength to strength since its inception. However, in 2025, we'll see a rise in different types of solar panels installed in homes across the country. At Wizer, we know that there isn't a one-size-fits-all approach to solar panel systems.
