Portable power stations let you take power wherever you go. A portable solar panel will let you keep it charged up wherever the sun shines. CNET's current favorite is the Jackery SolarSaga 200 ...

In a word: yes. In most states, it's cheaper to purchase and install solar panels on your roof than continuing to purchase electricity from your utility for the next 25 years (which is the estimated life of solar installations).. Solar panels for mobile homes cost as much as any other roof-top installation, as there is no real special equipment, and you can see some real savings.

Folding and rollable solar panels such as the MMP, Sunlinq and Powerfilm panels are supplied with a cigarette lighter socket attachment into which you plug your in-car charger (12V cigarette lighter plug). You will need to purchase this separately for your particular make of phone, but they are available from any good travel store, phone or electronic shop.
