

# Solar dual screen mobile phone holder

How to use a solar phone case?

Place the solar phone case in the sun to collect energy. Adjust the back panel angle to get optimal sunlight levels. You can remove the case and charge it while using your phone. Wait 30-60 minutes for a quick solar recharge to power 1-2 hours of use. The case can be separated from your phone for remote charging nearby.

Why should you buy a solar case?

Industry leading 23% solar cell technology. Defect-free cells deliver optimized solar collection. Conveniently enables variable methods for charging your smartphone. Why Solar Cases? \* Performance claims are based on common conditions but may vary considerably. Note: Product specifications and performance are subject to change without notice.

What is a dual boot phone?

Features a dual boot option that lets you quickly turn it into a larger keyboard, trackpad, or game controller for your phone. - It is fully-equipped with a hi-res capacitive touch screen, WiFi, Bluetooth, front and back-facing cameras, & audio jack. - The built-in battery can do double duty and be used to boost your smartphone.

Why should you buy a solar cell phone?

One distinguishing feature is its four foldable solar panels that can be handled very easily. The built-in ammeter can measure the current overflow and control it while charging the phones. It has an exclusive smart IC technology that can detect the phone's needs and provides a healthy charge to your phone.

Place the solar phone case in the sun to collect energy. Adjust the back panel angle to get optimal sunlight levels. You can remove the case and charge it while using your phone.
