The mounting brackets and the glass panels are strong enough for me to walk on (165 lbs). I don't make a practice of walking on my panels out of fear that a pressure point in the frame to glass connection might shatter the tempered glass. I do slide my entire body on top of them regularly for maintenance access.

4x 5m Aluminium Rails for Poly Mounting Clamps and Brackets: High-strength rails to support the solar panels, providing a sturdy framework. 4x Nylon Glass Filled UV Protected Rail Joiners: Connect rails seamlessly for extended support, enhancing the overall durability of the system.
