What is SolarEdge's Monitoring Platform app?

SolarEdge's monitoring platform app offers a sleek and easy-to-use interface, giving the user the ability to easily access energy production views based on day, week, month, year, or billing cycle.

Does SolarEdge have a Setapp inverter?

In addition to their monitoring app, SolarEdge recently upgraded its HD Wave inverter line with the SetApp inverter, eliminating the LCD screen (a potential point of failure), and introducing the necessity for installers to commission systems using a smartphone.

What is the free pvmobile app?

The Free PVMobile App allows you to view I-V and power curves in full colour and high definition detail in the field by touching your mobile device against the NFC chip in the PV200. Looking for industry FAQs?

How has mobile technology changed the solar industry?

Mobile technology has shown its prominence in the solar industry, where inverter manufacturers develop their own digital user experiences for PV owners eager to monitor the health of their systems. In the last few years, mobile technology has also enabled the rapid commissioning of PV systems with smartphone applications.

What is Fronius' Solar Web App?

Fronius's Solar.web app provides the user an instant snapshot of energy yield over the last five days including the current date.
