A solar powered outdoor outlet is just what the name says: an outdoor electrical outlet that uses AC electricity like any standard household plug-in but is powered by solar panels. Also called photovoltaics, they're small and lightweight, with a built-in inverter to convert the DC electricity the panels generate into AC electricity that most devices need to run.

Garden solar panels function like traditional solar panels but are ground-mounted instead of roof-mounted and placed in your garden. They are typically more expensive than regular solar panels, costing approximately \$11,700 for a 4kW system, but can help you save \$660 annually on electricity costs.
