Solar power fan cap

Solar-powered fan hats are an excellent way to keep cool while spending time outdoors. They are easy to make and only require a few simple supplies. Plus, they are eco-friendly and will help you save money on your electric bill. If you're looking for a fun summer project, we highly recommend giving this one a try. Happy building!

It just needs solar energy to be powered. A fan has been installed in front of the cap. This fan will make you cool during work under the hot sun. The cap stores the energy in its battery which can be chosen by the consumer as 3000 or 6000 mAH. You can use this energy to run a fan, turn on the LED on the cap, even charge your phone.
