The solar power mole repellent is a great option to get rid of them without using dangerous poisons, complicated traps, and harming fauna. Basically, it just deters gophers from living in your garden by emitting sonic pulses and vibrations at 400 Hz in all directions every 30 seconds. They find this repulsive and will move elsewhere.

**Solar Wheelchair by energyrefuge** Surprisingly, a solar-powered wheelchair is cheaper than most of its electric counterparts. Additionally, it can go 10km to 12km on a charge, compared to the 7km of a fully-powered electric ...

Solar powered watches have also been around since the 1970s. Modern solar powered watches incorporate the solar panel into the dial itself, or underneath. Some solar watches have a blue-grey tint to the dial to optimise sunlight intake. Just as with any other Solar powered device, the watch will store the solar energy in a rechargeable cell.
