Should I force a star system?

If you need to generate a system with such a world, it is preferable to force it. Note that even a garden-type world may be very cold or hot, as long as it falls in a range that humans can live in! If you want your star system to be located in an open cluster (which makes for close neighboring systems to explore) check the box.

What is StarGen & how does it work?

It is a C++ Solar-System Generator, based on a random seed, or on real astronomical data from the Celestia database. Starting with a small amount of information about a star (mass, luminosity and age), StarGen extrapolates the solar system from its initial dust sphere to its accretion into planets, asteroids and atoms.
