

The best photovoltaic panel prices at the moment

Find the detailed breakdown of solar panel cost data and get all the information you need around cost of a full system, savings available and when you will break even.

You can use price comparison websites to find the best price for your home, or go to different supplier websites to find out individual prices. What's more, using a solar battery - which we go into more detail about below - and exporting less electricity to the grid via the SEG will result in lower SEG payments, around £63, since you ...

Choosing the best solar panels for your home, energy needs and budget will help to ensure that you make the most of your investment in solar. But with so many solar panel price points, brands and types available, the choice can feel daunting. We're here to help.

There are plenty of solar panels available on the market, but we determined which brands offered the best PV panels based on durability, performance, customer satisfaction and sustainability. Request solar quotes by answering a few simple questions

Value solar panels offer the best prices (around £5,500 for 4kWp), whereas "mainstream" panels cost about 10% more (around £6,000), and "high efficiency" panels cost around 25% more (from £7,000). The table on the right shows common brands in each category.

Trina's Vertex N solar panel range takes the pick for the most powerful solar panels on today's market, with a power output between 685 - 710W. This makes them a great option for large homes with high energy demands, or even for very small homes with limited roof space, as solar expert Josua Pearce explains:

- o Solar panel cost, including installation: £7,000.00 (Actual price ranges from £5,000 to £9,000)
- o Estimated annual output: 3600 kWh (South of the UK)
- o Estimated Smart Export Guarantee Tariff: £50.00 (SEG tariff 0.25 pp kWh)

How Much Do Solar Panels Cost? A 3.5 kWp solar panel system, which costs £5,000-£10,000 is suitable for the average three-bedroom home with 2 to 3 residents. You can save £160 per year on your electricity cost with this method. A 5kW solar panel system would be necessary for larger households that house 4 or more people.

Compare the best solar panel deals in the UK with Solar Panel Comparison. We offer expert advice and competitive quotes for the latest solar panels from top manufacturers. Save money and reduce your carbon footprint with our easy-to-use comparison tool.
