

# Total amount of wind power generation of Guodian

Who makes Guodian wind turbines?

Guodian Power Development Company Limited (SSE: 600795), which is listed on the Shanghai Stock Exchange, is the Group's major thermal power subsidiary. China Longyuan Power (SEHK 00916) - runs the group's wind farms. Guodian United Power is responsible for the development and manufacture of wind turbines.

Who owns China Guodian Corporation?

China Guodian Corporation, which is commonly referred to as Guodian, is one of the five largest power producers in the People's Republic of China. It is a government-owned business which is administrated by the State-owned Assets Supervision and Administration Commission of the State Council (SASAC) for the People's Republic of China.

Who is China Guodian Corporation & Shenhua Group?

It is involved in the construction and operation of power stations in China as well as in Burma. On August 28 2017, SASAC announced that China Guodian Corporation and Shenhua Group will be jointly restructured. Shenhua Group will become China Energy Investment Corporation and will absorb China Guodian Corporation.

What happened between China Guodian Corporation and Shenhua Group?

On August 28, 2017, SASAC announced that China Guodian Corporation and Shenhua Group will be jointly restructured. Shenhua Group will become China Energy Investment Corporation and will absorb China Guodian Corporation. Guodian is involved in developing renewable energy projects. : 40-41

Who is China Longyuan Power?

China Longyuan Power (SEHK 00916) - is the Group's main wind power company. China Guodian Corporation is setting up a property insurance company in Beijing to diversify business into other areas, trying to aid its move towards becoming a more comprehensive energy conglomerate.

What type of wind turbines does aerodyn produce?

They mainly produce onshore wind turbines of size 1500 kW (designed by the German development company aerodyn Energiesysteme GmbH). In addition there are new turbines 2MW, 3MW, and a 6MW offshore turbine in development. They are among the top wind turbine manufacturers by annual market share (November 8 in 2012).

## Total amount of wind power generation of Guodian

By 2015, China Guodian's total installed generation capacity reached 135GW, including 94,637MW of Coal-fired, 16,447MW of Hydropower, 23,030MW of Wind Power, 890MW of ...

Description The project was developed by Guodian Dadu River Hydropower Development. GD Power Development, China Energy Investment and Sichuan Chuantou Energy are currently owning the project having ownership stake of 69%, 21% and 10% respectively. Pubugou is a reservoir based project. The hydro reservoir capacity is 5,390 million cubic meter.

The wind turbine UP1500-86 is a production of Guodian United Power Technology Co.,Ltd, a manufacturer from China. This manufacturer has been in business since 2007. The rated power of United Power UP1500-86 is 1,50 MW. At a wind speed of 3,0 m/s, the wind turbine starts its work. the cut-out wind speed is 25,0 m/s.

Near Dalat, people are working to construct what will be the largest desert solar plant in the world: the Dalate Banner &quot;Lead from the Front&quot; solar farm, which is expected to cover 58,000 hectares 2023, the structure already covered 3,300 hectares. When completed, the whole complex will include 8 GW of solar, 4 GW of wind, and 4 GW of coal-fired generation, plus storage.

Both Guodian's windfarms have installed capacity of 49.5 megawatts and could generate an on-grid electricity volume of 200 million kilowatts per hour annually. The total investment value of the first phase of construction may reach US\$148.2 million. Penglai Hushan wind farm and Zhaoyuan Xiadian wind farm are located in Yantai, Shandong province.

Power generation cost, US\$/kW: Total plant capital cost, US\$/kW: Subcritical: 36 : 766-789 : 4.0-4.5 : 1095-1150 ... Guodian Taizhou: 1000 MW : 4 : Harbin Electric Corporation : ... (NDRC 2009). Simultaneously, a number of other 100 ...

The company has developed the turbine independently, using technology from its existing turbines. According to Guodian United, the turbine is also suitable for onshore wind farms and intertidal wind farms. Chinese wind turbine major Sinovel Wind Group (SHA:601558) unveiled its own 6-MW wind turbine prototype in May, 2011.

Proceeds, after raising supporting funds after deducting intermediary fees and other related expenses, will be used to pay the cash consideration for the acquisition of Guodian Hubei Electric Power Co., Ltd. Guodian Hubei Electric Power Co. Guodian Hubei Electric Power Co. reported total revenue of CNY 5.9 billion, total assets of CNY 12.1 billion, operating profit ...
