

Trina Photovoltaic Panel 305

What are Trina Solar panels?

The Trina Solar Panels use specifications that allow the solar solutions to be used wherever they are needed; including residential, commercial, and industrial buildings, both on and off-grid. Trina is greatly concerned with ensuring top-quality and effectiveness, and so they conduct over 36 tests in their incredible research and development lab.

Who is Trina Solar?

Founded in 1997, Trina Solar is the world's leading comprehensive solutions provider for solar energy. We believe close cooperation with our partner is critical to success. Trina Solar now distributes its PV products to over 60 countries.

Why should you choose Trina Solar?

Trina Solar now distributes its PV products to over 60 countries all over the world. Trina Solar is able to provide exceptional service to each customer in each market and supplement our innovative, reliable products with the backing of Trina Solar as a

Trina Solar Panel Range. Trina Solar manufactures an extensive range of solar panels for residential, commercial and utility-scale installations, incorporating many of the latest cell technologies, including multi-busbar PERC cells, large 210mm third-cut cells, and, more recently, the high-density panel format with N-type TOPCon monocrystalline cells.

Trina Solar 415W is a PV module that uses 144 half-cut cells manufactured using proven by time technologies. The model's reliability, high efficiency, PID resistance and high wattage make it a good choice for commercial and industrial use, but residential clients can also reap the benefits it has to offer.

Trina solar panel price is slightly lower than the average on the solar market. We offer highly rated yet affordable Trina solar panels that range in price from \$160 to \$230. If you plan to purchase a Trina home solar kit, the price for it is going to be lower than buying each part of a system separately.

Le leader mondial de l'énergie solaire. Trina Solar fabrique des panneaux solaires photovoltaïques de qualité depuis 1997. Nous faisons partie des principaux fournisseurs mondiaux d'énergie solaire : nous avons fourni 23 GW au monde entier, en offrant aux foyers, entreprises et centrales électriques une énergie propre, abordable et fiable.
