

# Turnkey standalone energy storage EPC contract price in China

What is the largest energy storage procurement in China's history?

The tender marks the largest energy storage procurement in China's history. In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4.

Why are EPCs partnering with China's state-owned power companies?

EPCs in China are increasingly procuring and installing BESS for their customers. "As equipment suppliers, collaborating with these state-owned enterprises is important for not only any single tender, but also assessing long-term opportunities from China's power sector," Shi said.

How will PowerChina select a qualified supplier for energy storage system equipment?

According to the previously announced plan by PowerChina, this tender aims to select qualified suppliers for energy storage system equipment for 2025-2026. After the selection, a framework agreement will be signed.

Is China Power Construction Group squeezing market share?

Image: China Power Construction Group. State-owned EPC firm China Power Construction Group (PowerChina) recently concluded a 16GWh BESS supply tender, which resulted in extremely low prices amidst a squeezing of market share and increased buying power from state-owned companies, an S&P analyst told Energy-Storage.news.
