

Water leakage after photovoltaic panels were installed on the roof of a rural house

What causes roof leaks after solar panel installation?

Improper installation is one of the primary causes of roof leaks after installing solar panels. If the solar panels are not securely attached or if the mounting brackets are not correctly positioned, water can seep into the gaps and result in leaks.

Is it the solar panels that are leaking?

If solar panels are not ideally suited for your roof, poor installation tactics can make your roof leak. Roofs made from wood shingles, clay, slate, and terracotta tiles are particularly vulnerable to leaks and damage during installation.

Can solar panels protect your roof from water leaks?

While solar panels can protect your roofs, if you install the solar panels when the roofs are in bad shape, you would end up in more trouble. While the panels won't protect the roof from the leak, it would be tough for you to revamp your roof after installing the solar panels. How to identify and fix the solar water leaks on the roof?

What causes a roof leak?

There could be any number of causes for a leak, including damage caused by walking on the roof, dragging solar panels, or having a tile break in the underlayment. These are not issues you can resolve yourself, and since your warranty would cover these issues, your first call should be to your installer.

What causes a post-solar panel leak?

Exposure to weather conditions and UV radiation over time can cause sealants to degrade, leading to gaps that allow water to infiltrate and cause a post-solar panel leak. Regular inspection and maintenance of the sealants can help prevent this issue. Roof age and condition also impact the risk of a post-solar panel leak.

Can a solar roof damage a house?

Installing solar panels on roofs that are over thirty years old can cause damage due to existing deterioration in the plywood or rafters under the roof. The added stress from the solar installation can make these weak spots more prone to leaks, causing further damage.
